1. PRODUCT AND COMPANY IDENTIFICATION

Product: PBTP | FLASH PEARL METALLIC
Supplier: Powder Buy The Pound
P.O. Box 535
Nolensville, TN. 37135

For non-emergency information contact: (615) 776 7600

Emergency Telephone
Spill Emergency: (800) 424 9300
Health Emergency: (800) 441 3637
Chemtrec: (800) 424 9300

2. HAZARDOUS INGREDIENTS

- Chemical characterization
- Description: Product is a mixture of hazardous and non-hazardous ingredients compounded in polymer

3. POTENTIAL HEALTH EFFECTS

- Information pertaining to particular danger for man and environment
  Harmful by inhalation and if swallowed.

- Classification System
  Classification was made according to the latest editions of international substance lists, and expanded upon from company and literature date.

  NFPA ratings (scale 0-4)
  Health 1
  Fire 1
  Reactivity 0

- Effects of overexposure to:
  T-Glycid-T-Cyanurate (TGIC) Warning! Severe eye irritant. Toxic by ingestion or if inhaled may cause dermatitis and sensitization. Can cause effects on the male reproduction system.
4. FIRST AID MEASURES

- **After inhalation**
  Supply fresh air and to be sure call for a doctor

- **After skin contact**
  Generally the product does not irritate the skin

- **After eye contact**
  Rinse opened eye for several minutes under running water

- **After swallowing**
  Rinse mouth out and then drink plenty of water. If symptoms persist consult doctor

5. FIRE FIGHTING MEASURES

- **Suitable extinguishing agents**
  Use CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.

- **Protective equipment**
  Wear self-contained respiratory device

6. ACCIDENTAL RELEASE MEASURES

- **Person-related safety precautions**
  Ensure adequate ventilation

- **Measures for environmental protection**
  Do not allow to enter sewer/surface or ground water

- **Measures for cleaning/collecting**
  Pick up mechanically. Dispose contaminated material as waste according to item 13

7. HANDLING AND STORAGE

**Handling**

- **Information for safe handling**
  Prevent formation of dust. Ensure good ventilation/exhaustion at the workplace

- **Information for safe protection against explosions and fires**
  Dust can combine with air to form an explosive mixture
Storage

- Requirement to be met by storerooms and receptacles
  Store in cool, dry place, in tightly closed container. Storage temperature not to exceed 25 degrees C/77 degrees F to ensure product quality. Shelf life of the product at that temperature up to 2 years, after that the performance of the product will deteriorate. Protect from heat and direct sunlight. Protect from humidity and water.

- Information about storage in one common storage facility
  Not required

8. EXPOSURE CONTROLS AND PERSONAL PROTECTION

- Additional information about design of technical systems
  No further data; see item 7

- Components with limited values that require monitoring at the workplace
  T-Glycid-T-Cyanurate (TGIC)

- Personal protective equipment
  Keep away from foodstuffs, beverages, and feed. Wash hands before breaks and at the end of work. The usual precautionary measures for handling chemicals should be followed.

General protective and hygienic measures

- Inhalation
  It is recommended to use MSHA approved respirator when handling powders. Powders are considered nuisance dust.

- Skin contact
  Avoid skin contact; use long sleeved shirts and impermeable gloves at a minimum when handling powders. TYVEK full body suites or equivalent are recommended for heavy exposure. Be sure to launder contaminated clothing before reuse. Wash skin with mild soap and water if contact occurs. If symptoms develop, consult with a physician.

- Eye protection
  Require the use of safety goggles with side shields. Powder particles can be abrasive on the cornea. In case of eye contact flush with plenty of fresh water. If irritation develops consult with a physician.

9. PHYSICAL AND CHEMICAL PROPERTIES

- Form
  Solid, finely divided powder

- Color
  According to product specifications

- Odor
  Nearly odorless
10. STABILITY AND REACTIVITY

- **Product Stability:**
  No decomposition if used according to specifications

- **Thermal decomposition/conditions to be avoided**
  Decomposition at high temperatures may yield Carbon Dioxide, Carbon Monoxide, Nitrous Oxides, and other hazardous gases.

- **Dangerous Reactions:**

- **Dangerous products of decomposition:**

11. TOXICOLOGICAL INFORMATION

- **Primary irritant effect**
  On the skin – Powder can be irritating through mechanical action, also has a drying effect.
  On the eye – Powder can be irritating through mechanical action, can cause abrasion on the cornea.

- **Sensitization**
  Sensitization possible through inhalation and skin contact

- **Additional toxicological information**
  The product shows the following danger according to internal approved calculation methods for preparations.

---

**Change in condition**

- **Melting point/range**
  70 - 80 Degrees C or 158 - 176 Degrees F

- **Boiling point/range**
  Not Applicable

- **Flash point**
  Not Applicable

- **Auto igniting**
  Product is still not self-igniting

- **Danger of explosion**
  Product does not normally present an explosive hazard. However, dust can combine with air to form an explosive mixture if it comes in contact with a source of ignition.
  
  LOWER EXPLOSION LIMIT: 15 g/m3
  UPPER EXPLOSION LIMIT: 50 g/m3

- **Density:**
  1.2 g/cm3 - 1.7 g/cm3

- **Solubility in/miscibility with water**
  Not miscible or difficult to mix

- **Solvent content**
  Organic solvents – 0
  Solids content – 1
12. ECOLOGICAL INFORMATION

- **General notes**
  Water hazard class 1 (self-assessment): Slightly hazardous for water

13. DISPOSAL CONSIDERATIONS

**Product**
- **Recommendations**
  Must not be disposed of together with household garbage. Do not allow product to reach sewage systems

**Unclean packaging**
- **Recommendations**
  Disposal must be made according to official regulations

14. TRANSPORTATION INFORMATION

**DOT regulations**
- **Hazard class**
  Non Regulated

**Maritime transportation IMDG**
- **Marine pollutant**
  No

15. REGULATIONS

- **Product related hazard information**
  The product has been classified and marked in accordance with directives on hazardous materials

- **Hazard symbols**
  Harmful

- **Hazard-determining components of labeling**
  TGIC

- **Risk phrases**
  Harmful by inhalation and if swallowed
  May cause sensitization by inhalation and skin contact
16. OTHER INFORMATION

► This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

► Pure, concentrated TGIC is toxic to humans. At the concentrations TGIC is found in Powder By The Pound powder coatings, it is not toxic and only contributes to nuisance dust. Users of TGIC containing powder coatings should be aware that such coatings could cause contact dermatitis or short term, asthma like symptoms in sensitive persons. The European Union regulates pure TGIC under its environment annex as a substance with potential reproductive effects.

► WARNING: This product contains chemical(s) known by the State of California to cause cancer, birth defects or other reproductive harm

► This powder coating may contain crystalline silica as quartz. Crystalline silica is an experimental carcinogen, tumorigen and neoplastigen; it is listed by the National Toxicology Program, International Agency for Research on Cancer, and is listed pursuant to California’s Safe drinking Water and Toxic Enforcement Act (1986) as a human carcinogen.
